

Phones

Setup

The Ethernet (internet) cable goes from the wall port into this port on the back of the phone.

The other cable goes from this icon on the phone into the computer.

DO NOT REVERSE THESE

Troubleshooting

- Not turning on-
 - Change Ethernet ports- There is only ONE port per classroom that will work.
- Not receiving calls-
 - Make sure Do Not Disturb (DND) button has been pressed.
 - CONFIG message- work order is needed; email tech contact
- Voicemail-
 - To leave a voicemail, dial the voicemail # directly. (The system does not automatically send you to VM if someone doesn't pick up.)
 - Only give parents the voicemail number
